EXAMINER'S STATEMENT FOR REASONS FOR ALLOWANCE

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7/21/06 has been entered.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: The prior art of Cole fails to explicitly disclose or reasonably suggest a method providing an integrated optical waveguide circuit having an optical processing area to provide an optical function (example list indicated in remarks) with a waveguide going around said area so that an input and output are positioned on the same side, further including a fiber array to couple through a loop to further align the device. Cole appears to disclose an optical processing area that corresponds to the "array" portion of the claimed invention, however, one having ordinary skill in the art would not have the motivation to move the processing area from a central location to that of the loop as in the claimed invention as it may pose further issues of alignment error. Therefore claims 1, 13, and 21 are allowed. Claims 2-12, and 14-20 are allowed by virtue of dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
